

APPLICATION INNOVATION

1

Learning Path – Developer

Learning Objectives		Course Name	Source	Hours	Learning Outcomes
Week 1 & 2	Design and implement Azure PaaS compute and web and mobile services	Azure Introduction	MPN17413  	8	Technology knowledge of Azure App Services, Azure API Apps and API Management, Logic Apps and Mobile Apps, Azure Functions and Azure Service Fabric Apps Capability to explain value proposition for each of these services
		Cloud Application Development and Tools	MPN17423  	3	
		Azure Fast Start for Website on PaaS -> Developing Solutions	MPN15856 		
		App Service Mobile Apps	MPN17430  	1	
		Design and implement Azure App Service app	MPN17735  	5	
Week 3 & 4	Design and implement a storage and data strategy	Design and implement a storage strategy	MPN17777  	5	Technology knowledge of Azure App Services Azure Storage, Azure SQL Databases, Azure DocumentDB, Redis cache, Azure Search Capability to explain value proposition for each of these services
		Certification Resources for Exam 70-532 - Design and implement a storage and data strategy	MPN17749 	5	
	Manage identity, application and network services	Identity and Access Management	MPN17535  	1	Technology knowledge of Azure Resource Manager Deployment model, ARM Templates, Azure Virtual Network, Identity on Azure Cloud Capability to explain value proposition for each of these services
		Azure Identity with AAD	MPN17532  	10	
		Design and deploy ARM templates	MPN17737  	1	

Skill Level  Beginner  Intermediate  Advanced

Mode of Learning  Online  Custom Instructor-led training  Hands on learning

Content Format  Video  Reading Material

Learning Path – Developer

Learning Objectives		Course Name	Source	Hours	Learning Outcomes
Week 5	Create and manage ARM Virtual Machines	Azure Infrastructure as a service and Azure Resource Manager Overview ● 	MPN17513 	0.14	Technology knowledge of Azure Virtual Machines Capability to explain value proposition for each of these services Deploy workloads on Azure Resource Manager (ARM) virtual machines (VMs), both Linux & Windows.
		Azure Infrastructure-as-a-Service (IaaS) - VMs ● 	MPN17513  	15	
		Running Linux workloads in Microsoft Azure ● 	MPN16867  	1	
Week 6 & 7	Create and manage Azure PaaS components	Custom ILT ● 	Custom ILT	32	Implementation and demonstration of all the solutions possible using the related Azure Services
		Custom ILT ● 			
Week 8	Accreditation & Certification	Certification Exam 70-532 ●			Certified on Developing Microsoft Azure Solutions (70-532)
Week 9 & 10	Understanding customer scenario and creating an application design for the same.	Custom ILT ● 	Custom ILT	32	Implement provided customer scenarios and build an application for the same.
	Implementing Solutions for Web Apps, Web Jobs, Azure Functions and Logic Apps and Storage on Azure	Custom ILT ● 			
	Implementing Solutions for Web Apps, Web Jobs, Azure Functions and Logic Apps and Storage on Azure	Custom ILT ● 			

Skill Level ● Beginner ● Intermediate ● Advanced
